

## Company Profile

ACL Wireless Limited is a leading provider of mobile value added services. Headquartered in India, it employs over 250 people and was founded in the year 2000.

ACL offers a wide range of SMS, IVR & GPRS based applications and services to mobile operators, enterprise and consumers. The company specializes in the development of consumer centric mobile community applications and managed mobility services.

ACL's portfolio of products include Mobile Instant Messaging, Mobile Social Networking, Mobile Chat, SMS Broadcast & Alerts, SMS & Voice Short Codes, Carrier Agnostic connectivity, Ring-Back-Tones, Voice & WAP portals, and Mobile Content aggregation amongst others.

These products and services are deployed on more than 30 mobile networks in over 20 countries across India, Middle East, Africa, South East Asia and Latin America. Moreover, these products have enabled over 200 enterprises in India to successfully leverage the mobile space as a medium to serve their customers. The company has been on a high growth trajectory ever since it was founded. It has been declared as a 'Red Herring 100 Asia' winner and has also been ranked by Deloitte amongst India's fastest growing technology companies for three consecutive years. The average growth rate for last 3 years has been in excess of 100%.

ACL is a privately owned company with investment from Naspers/MIH, a multinational media group based in South Africa and Inter-Asia Venture Management, Hong Kong, one of Asia's oldest venture capital firms.
